

James Brough
National Aviation and Space Education (AVSED) Program Manager

James Brough was an educator for 21 years and joined the FAA in 2008 as the FAA's National Aviation and Space Education Program Manager. Jim provides national leadership to prepare students to enter the aerospace industry workforce.

Jim is also a private pilot and aircraft owner, which brings a unique perspective to his position as the National STEM AVSED Program Manager.

He has received recognition and numerous awards for his aerospace education initiatives including, the Christa McAuliffe Sabbatical Award and an Excellence in Education Award ("ED"ies) by the state of New Hampshire. In 2001 Jim was inducted into the New Hampshire Teacher's Hall of Fame.

Map Skills Using Sectionals:

Educators will learn to teach map skills using real Visual Flight Rules (VFR) sectionals. This fun and educational workshop will demonstrate an easy, hands-on approach to spice up teaching map skills to students of all ages and ways that this core activity can be adapted to meet student needs.
